

Biloxi, MS and Pascagoula, MS: Hurricane Katrina Aftermath

Landsat 7 satellite data acquired 11/08/2004

Landsat 7 satellite data acquired 9/08/2005

These Landsat 7 satellite images show damage from Hurricane Katrina along the Mississippi Gulf coast from Biloxi, Mississippi to the edge of Mobile, Alabama. The bottom image, acquired on September 8, 2005, in comparison to the same area in 2004 (top image), reveals how the brunt force of the hurricane not only affected the coastline, but also reached the inland areas of the Pascagoula River.
